

IntraHealth Ltd – Project: To Optimise Medical Therapy for Stable Angina patients

Intrahealth Ltd and Servier Laboratories Ltd are to engage in a Joint Working Project to enhance the management of patients with Chronic Stable Angina, to a Standard of Care defined by the Nice Stable Angina Guidelines CG126 and the Consensus Stable angina guideline. IntraHealth Ltd want to provide a personalised Healthcare Professional led service in a primary care clinic where patients with Stable Angina within their registered population of 56 000 patients will be reviewed on an individual basis.

Both parties have committed resources to this project which will run from January 2011.

The objectives

Patient	<ul style="list-style-type: none"> • Patient reported outcomes from Questionnaire • Better information about condition and treatment options • Better experience of Healthcare system
NHS	<ul style="list-style-type: none"> • Better use of resources – fewer hospital admissions for Angina emergency admissions
Servier	<ul style="list-style-type: none"> • Better understanding of customer and patient needs • Better understanding of Joint Working • To help inform future Joint Working projects
